Summary

Versatile and motivated software engineer with solid experience in developing scalable, high-performance web applications and integrating AI solutions. With solid experience in full-stack JavaScript frameworks, cloud technologies and container orchestration. Committed to building robust and maintainable software.

Experience

Café granito marrón
Freelance Developer
 <https://cafegranitomarron.com/>

January 2024 - March 2024
Buga, Valle del Cauca

Developed and deployed a custom e-commerce site for a coffee startup, boosting online sales by 40% and improving customer engagement by 30% through WhatsApp API integration. Designed a responsive product catalog and optimized performance using Jotai and Pocketbase, enhancing user experience and streamlining operations.

Technologies: TypeScript, React 18, Jotai, Pocketbase, React Router, Axios.

Antonio José del sucre
Freelance Developer

June 2024 - September 2024
Tuluá, Valle del Cauca

Developed a loan management platform for a local school, streamlining loans and resource returns, reducing processing time by 35%. Implemented reporting and role-based access control features, ensuring secure, location-specific resource management for administrators, teachers and students.

Technologies: TypeScript, React 18, DrizzleORM, Postgres, Telefunc, Hono, Zod, NanoId.
